

## **CITY OF DENHAM SPRINGS**

Office of Planning & Development

116 N. Range Ave.

Denham Springs, LA 70726

(225) 667-8326

### **APPROVED REVIEWING ENGINEERS**

Effective 3/15/2016, City ordinances §22-52 and §94-6 now require commercial and subdivision developers to have all civil construction drawings reviewed by an engineer approved by the Office of Planning & Development, ensuring the proposed improvements meet industry, state, parish construction requirements, as well as the City's zoning, drainage, and stormwater management requirements. The applicant shall submit the drawings directly to the approved reviewing engineer. The reviewing engineer will complete the plan review report and invoice the applicant. Once the applicant satisfies the requirements of the reviewing engineer, the plan review report will be submitted to the Office of Planning & Development to complete that portion of the permitting process.

The following engineering firms have been approved for the review of civil construction plans:

#### **Alvin Fairburn & Associates, LLC.**

1289 Del Este Ave.
